WEBSTER — Webster and Dudley have joined Southbridge, Charlton, Brimfield and Uxbridge, among others, as members of an unenviable Central Mass club Saturday when a tornado rolled through downtown Saturday morning.

The Massachusetts Emergency Management Agency reported 25 people were left homeless, one was slightly injured, and three buildings need to be demolished, while several others are temporarily uninhabitable.

Callahan chosen to lead Oxford

KIMBERLY MASCHI
TIMES CORRESPONDENT

Oxford Board of Selectman decided on the new town manager from a panel of three applicants. Former state Rep. Jennifer Callahan, Southbridge Town Manager Ronald S. San Angelo, and former Aquinnah Town Administrator Adam Wilson for the open position of Oxford town manager. The decision was difficult as each candidate had experience, knowledge, and drive to serve the Oxford community. “Jennifer impressed the heck out of me” said Chairman Dennis Lamarche.

“She seems like spitfire to me, and that is what we need,” says Lamarche.

Vice-chairman Cheryll LeBlanc agrees with Lamarche and thanks all who have applied to serve the town.

Meaghan Troiano states, “Our selection committee did such a wonderful job getting us to this point, we had three

fine candidates. I am torn between Jennifer Callahan and Mr. San Angelo.”

John G. Saad said, “you have to choose who you feel is the best fit for the community, I have worked with a lot of different personalities.”

Saad shares, “I was here when the first town manager was appointed 40 years ago. I have seen Jen in action and I remember her aggressiveness when she was a state rep. She gets stuff done for her communities.”

Callahan grew up in Sutton and attended Notre Dame Academy in Worcester. Callahan earned a B.S. and a B.A. from Boston University and a master’s degree in public health research and administration from the University of Massachusetts at Amherst. In 2016, Callahan assumed office as the town administrator or Millville. Callahan is a former state representative for the 18th Worcester

DUDLEY – In late July law enforcement personnel from across the commonwealth celebrated the signing of a Municipal Police Training Fund bill at Governor Charlie Baker’s office in Boston. Among

those present was Dudley Police Chief Steve Wojnar who as acts the President of the Massachusetts Chiefs of Police Association.

Wojnar talked about the bill during a meeting of the Dudley Board of Selectmen on July 30 and said the fund has been a

long time coming.

“The presidency of the Chiefs Associate is an interesting gig. It’s been very busy, but a great learning experience. We finally were able to successfully get a training funding passed for

Officers from all over Worcester County have come to the Oxford Police Department for an in-depth experience and knowledgeable information on drone tactics and maneuvers. Michael Uleski from Dart Drones came to teach officers from various towns how to correctly and safely use drones for search and rescue missions. Uleski has a private pilot’s license and graduated from Embry-Riddle Aeronautical University with a Bachelor’s degree in aeronautical sciences. He has years of experi-

ence and is currently a patrol division Sergeant with public safety department in Daytona Beach. He has also been cross-trained in law enforcement, firefighting, and EMT which makes him the perfect guide for the task of teaching all participating officers the benefits and maneuvers of a drone. Officer Crag Gagner of Oxford Police Department heads this training program as the leader of the new drone projects. Gagner has been self-trained and expertly uses the drone that belongs to Oxford PD.

HELP FOR CLEAN UP
The town of Webster is fortunate to have 20 members of “Team Rubicon” (www.teamrubiconusa.com) coming to town on Friday, Saturday and Sunday to assist residents with clean-up of debris on their property. They are a volunteer organization comprised mostly of Veterans and all we need to do to have them assist our residents is provide them with water, Gatorade, breakfast and dinner as Team members will be working full days. If you would like to help contribute drinks or one of the meals for these selfless individuals,

please contact Jenn or Courtney at the Town Administrator’s Office: 508-949-3800 x1041. Thank you for your continued support and please help spread the word!

Car Buying Tips

People ask Place: My new car seems so complicated. Why do I have all this technology?

The Right answer: During our recent Classic Cruise we were able to see first hand the many differences in today's cars versus the cars of yesteryear. The new cars had so much more in electronics to increase performance, efficiency, comfort and most importantly safety. The innovations many of us have simply grown to expect in our cars were not available in the 50's, 60's or even 70's. Much of the now standard features were developed in just the last few decades. Federal regulation and of course customer demand have contributed to much of the new technology in the new cars. Even some of the new technology like your cell phone have sparked new tech in your cars. Airbags that were once only in the steering wheel now seem to come from everywhere and can create a complete “canopy” offering protection to passengers in every seating position. Ford even has available inflatable seat belts to provide rear passengers even more security. Anti-lock braking systems, stability control systems, adaptive cruise control, automatic climate control, intermittent wipers, infotainment systems, all-wheel drive, 6 and 10 speed automatic transmissions, power windows and door locks, back up cameras, electronic ignition and fuel injection are just some of the things we have seen in today's cars that weren't in those classic cars we love. In fact, did you know that in early F series pickups a passenger side windshield wiper was an extra cost option. We love those old cars and trucks. They sure are great to admire. Look closely at the new cars and trucks and marvel at the things they can do. The advancements are incredible and much more is coming to improve the next generation of transportation.

STUDENT ACHIEVEMENT
WORCESTER — Daniel Sochacki of Webster, a member of the class of 2019 majoring in biomedical engineering at Worcester Polytechnic Institute (WPI), was a member of a student team that recently completed an intense, hands-on research through the WPI project center in Thessaloniki, Greece. The project was titled Estimating the Feasibility of Implementing a Vermicomposting Program to Address Food Waste in the Pylaia-Chortiatis Municipality, Greece. In their project summary, the students wrote, “With a focus on the Pylaia-Chortiatis municipality in northern Greece, we developed a public-private business model to effectively treat collected food waste.” At WPI, all undergraduates are required to complete a research-driven, professional-level project that applies science and technology to addresses an important societal need or issue. About two-thirds of students complete a project at one of the university's 40-plus off-campus project centers, which are located around the world. A signature element of the innovative undergraduate experience at WPI, the project-based curriculum offers students the opportunity to apply their scientific and technical knowledge to develop thoughtful solutions to real problems that affect the quality of people's lives-and make a difference before they graduate.

Town meeting planned to discuss economic plan

BY JASON BLEAU
TIMES CORRESPONDENT

DUDLEY – After months and months of work, coordination and patience the Economic Development Committee has finally brought a draft document to the town containing Dudley's five-year economic development plan.

The 36-page document lays out all the details of how the Economic Development Committee recommends the town move forward with providing more business opportunities in town while also preserving the image and atmosphere of Dudley that citizens have grown to love and appreciate. EDC Chairman John Briere spoke with selectmen about the document on July 30 and thanked many parties for being involved in the extensive process.

"On behalf of the entire Economic Development Committee we wish to extend our sincerest thanks and gratitude to all of the residents in town who provided input, the various town boards and committees who welcomed us and provided us with tremendous amounts of information, the CMRPC for their technical assistance and Don Johnson our town planner. At the end of the day the cost of the town was actually zero dollars except for manpower and boards and some of the officials spending time with us. Don Johnson got a grant from the CMRPC for the technical portion of it. The rest has been pretty much done through volunteer work," Briare said.

The five-year plan was produced after revelations that the last major planning project of the town was the master plan adoption in 2000 which he Briare said has lost its impact on the town. He said having a plan in place will give guidelines and timetables for when everything should be done and by whom which should provide the building blocks for greater things still to come to the town of Dudley.

"The Economic Development Plan will only be successful if each town board and official uses it as their directional navigation aid in the decisions which must be made in the future," Briare said later expanding on these comments by reading from the document itself.

"The goal is to make the town of Dudley a vibrant, community-oriented town that is a great place to live, work and play. We strive to create a community that will foster an array of economic opportunities for our residents while preserving the environmental, cultural and historical elements which are cornerstones of our town. For the work force of today and tomorrow Dudley will provide the leadership and business environment needed to compete in the current knowledge-based economy."

Among the details included in the document are the gross regional product of the town, which sits at \$306.5 million a year, as well as a breakdown of eight specific goals for the community

ranging from agriculture to local government efficiency, government philosophy, water and sewer infrastructure and more.

Selectman Paul Joseph moved for selectmen to accept the draft document, but requested that an open forum meeting be held in the future to allow for citizens to come in and have an open discussion with town official, including the EDC, about any changes or added goals for the five-year plan.

"I trust that the public forum, the public input, the public discussion will enable the Economic Development Committee and this board to prioritize a number of the suggestions that are in this report," Joseph said.

John Briare said the EDC expected this and is fully open to having a public forum meeting.

"We learned a long time ago you never fall in love with your own plan and you always adapt and evolve. What we want is something that all the boards can get behind and agree with. It's not perfect, but it's a good place to start and as time goes on we change. We still have phase two and phase three on the technical side as part of that five-year plan that's still ongoing as well," Briare said.

The full five-year plan document can be found on the Dudley town website under the Economic Development tab. A date for the town meeting has yet to be announced.

August Real Estate Market Update

According to Bankrate.com as of 06/10/2018 the rate on a 30 year fixed loan was 4.45% which is up slightly from last month. Homes priced appropriately and staged well are still selling very quickly but the inventory continues to grow. This shows that the local Real Estate market is showing signs of stabilization.

Today we have 1991 single family homes for sale in Worcester County compared to 6 months ago where we had 1187 single homes for sale and last month we had 1835 for sale. 12 months ago we had 1792 homes for sale so inventory each month is continuing to creep up. The average

sales price while it is taking 16.7% less time to sell the homes this year than last year in Worcester County. This shows that prices are still rising and homes are still selling quicker than a year ago. Looking at these

days on market is currently 95 days which is a 1.0% increase in days on market from last month. This shows inventory is slightly rising and homes are selling in a similar timeframe to last month. If we look at homes sold over past 12 months compared to the same time for the previous year there is a small increase in sales of 1.9% and a 5.8% increase in average

signs it still shows growth with increases in sales price and sales from 12 months ago, so the market is still strong and it is definitely still a great time to sell a home

I know I always say to ensure the hire a Realtor that understands your local market. When the market starts to change like it is now it is more crucial than ever to ensure you hire someone who understands the economics of Real Estate to ensure your pricing and marketing strategy get you the results that you desire. It makes sense more than ever to interview a few of the top agents in your area to ensure that you hire the best agent for the job.

bankHometown donates second installment of \$5,000 to NCMDC

OXFORD – Michael D. Hewitt, president and CEO of bankHometown, presented a check for \$5,000 to the North Central Massachusetts Development Corporation on May 31. This donation is the second installment of a three year commitment to the corporation, resulting in a total donation amount to be \$15,000.

The NCMDC is the principle resource for the region in terms of economic development, lending and financing, and implementing a multi-faceted regional economic development strategy to enhance economic development services while expanding lending capacity to accommodate

the region’s unique industry mix. The Council’s mission is to plan and implement programs to create jobs and increase economic opportunity in the region.

“Hometown Bank is proud to support the important work being done at the NCMDC for small businesses. Our area is so fortunate to have these free resources and we continually encourage small businesses to take advantage,” said Christina DiRusso, vice president of commercial lending at bankHometown.

The NCMDC is staffed by experienced professionals with extensive backgrounds in economic development, banking and finance, and

government affairs. It also provides businesses with resources such as a real estate site finder, which provides information, tools and technical support to establish, grow, and expand their business in north central Massachusetts.

bankHometown has served its communities since 1889 with offices in Massachusetts (Athol, Auburn, Leominster, Oxford, Lancaster, Sturbridge and Webster) and Connecticut (Putnam, Brooklyn, Killingly, Thompson and Woodstock). Damage ignored, the show goes on

From left to right LeeAnn Sherwin, Todd Sherwin, Ray Sherwin, and Sam Sherwin from Oxford, Mass. Mighty Vikings who braved the tornado for the beer show!

KIMBERLY MASCHI
TIMES CORRESPONDENT

The show must go on, through the tornados wake, KBC Brewery blocked off their damaged area and still held a magnificent show for local residents. The brewery, located off Main Street, behind the police department, suffered damage from the tornado that swept through Webster. Along the French River walk trees were uprooted, fences were shattered, and the beer garden suffered dearly.

“We will rebuild,” says owner Brian Kretschmann with fiancé Kelly Vermette. Vermette gently rocks their newborn daughter and is worried about the damage.

“I am so happy we were still able to open,” says Vermette. “Everyone is still able to make it to the show.” Vermette is referring to the well designed and hilarious “The Beer Show, A Royal Mocktober Feast!” that went on as scheduled Saturday night after the storm. The show is designed to highlight the brewery and the many batches of beer it creates. KBC specializes in German and American style beer and is place where many local residents gather for laughter, music, and comradery. Those who ventured out were thankful for a place to go where they could come together and enjoy some positivity through the destruction. Kretschmann and Vermette are always looking for ways to help their community in the best way they can, this time it was to help those in attendance take a break from the chaos and remember that even when times are tough, laughter can lift you up.

The beer show was performed by a group of very talented actors and one musically valuable minstrel, Paul Courchaine. Frank Dixon, from Franklin comes from The King Richards Faire in Carver, where he plays the jester. Bill Forbes from Mapleville, Rhode Island is an actor and joined by his daughter Bryson Michaels from Sutton and his sister Tina Kenney from Norfolk.

“They really put on an awesome show” says Vermette.

Tony Island form Oxford did the catering for the event and made a German feast fit for a King. The feast was complete with potatoes, sauerkraut, sausage, and rich chocolate cupcake. Each course was accompanied by beer tasting of the finest brews from the KBC brewers.

The entire Sherwin family from Oxford came out to enjoy the show. They put on their Viking hats and braved the storms damage to have a good time. The actors sang songs and played games with all in attendance. Michaels was a shining star with her Prinderella story, “Twonce upon a Mime” she stumbles and somehow made the story of Cinderella come to life with funning slurrations. Kenney got everyone at the tables to hoot and holler for their provinces and join in the games. Forbes had everyone laughing with his antics and Dixon was such a grand ole’ king.

“We had a wonderful time,” says Sergio and Johnna Bacelis of Worcester.

Aimee Jones from Spencer enjoyed the show and bought canned beer from the brewery to bring back home to her husband. The Hefeweizen was a light and airy German Wheat Beer and is canned upon request. The IPA called Grace is robust and strong and a favorite among many. Paired with the dessert, the Summer Porter, was crisp and tasty with hints of blueberry.

The tornado that ripped through Webster caused many hearts to break. With buildings gone; lives are displaced, businesses are suffering, and the community is shaken. Those at the KBC Brewery pushed aside their thoughts of damage and chaos and worked hard to put on a show for those who needed a place to go and a reminder that when times get tough, there are people around you who will share a laugh, a smile, and a beer with you.

The cast from “The Beer Show” from left to right, Bill Forbes from Mapleville, Rhode Island, Frank Dixon from Franklin, Bryson Michaels from Sutton, and Tina Kenney from Norfolk. The show must go on!

Definitions of a political entity

In an age of political correctness, we cringe at certain words. We do not wish to offend, or at least some of us don't.

Others just let that freak fly. But that is for a different essay.

Which is why we read the letters to the editor with a very jaundiced eye. Sure we believe in free speech, but come on. Why should we allow the name calling that sometimes deteriorates to the level of the sandbox? Really? These pages are for thoughtful, approximately intelligent exchange of ideas. We are great with opposing viewpoints. We are not happy with gutter sniping.

When you bring up a letter, talk about the politics, not the letter writer. Make your point, move on. 'Nough said.

But back to the original purpose of the whole thing.

There are debates, real, genuine intent debates, about whether the words 'illegal' or 'undocumented' should be part of the lexicon for the people now in the country improperly.

Yes, they absolutely are here illegally, because they overstayed a visa, crossed a border without the right paperwork, were brought here by parents without the right paperwork, had paperwork lost or stolen, or for whatever reason; they do not have what they need to stay here correctly. And because of that, yes, they are here illegally and obviously without the right paperwork, they are undocumented.

So both terms work.

The argument is over whether one term or the other is more derogatory, and whether one is less dehumanizing.

People, say the advocates of undocumented, cannot be 'illegal'. Their actions might be, but people can't. It is in their eyes, an incorrect term.

But, those who don't like undocumented say it is too 'soft' for those who have come here and are intentionally by definition committing a crime.

Derogatory terms for immigrants isn't new.

FOB: fresh off the boat. Didn't matter from which country, and isn't interesting that someone not wanted could easily be FOBbed off.

WOP: with out papers. That's right, while it was usually associated with people of Italian descent, the derogatory term was originally applied to many groups who arrived without proper documentation, illegal immigrants. But in the earlier days of such migration, paperwork was less important, and in fact, harder to have.

What the country might very well need are a series of Ellis Islands once more. Centralized places where everyone comes through the same place.

We've seen scenes from such historic films as the Godfather, where a small Italian child w-o-p, and in fact ill, is placed in quarantine but eventually is reunited with family. This is in the early 1900s, and we are complaining about it happening now?

History is circular. We don't learn very well from our mistakes. Crossing invisible lines and protecting ourselves from ourselves has been happening since the first cave family decided not to share their campfire.

The words we use to say we don't like how we feel about one another or how someone else feels or thinks hasn't changed much either. Different time, different language, same nonsense.

We become enraged over those who think differently than ourselves, how dare they not understand our way is best? How can't they see what we see? Don't they see it our way?

Apparently, they don't. And we can't see it their way either.

We actually think that is a good thing, we're back to the beginning here: opposing viewpoints is a good thing.

How stale a world it would be without variety.

LETTERS TO THE EDITOR

Frohock: not financially viable

To the Editor:

Many interested parties attended a special town meeting on Monday July 30th at the Webster town hall where the town leadership presented a plan to build one hundred boat slips at Memorial Beach.

The presentation was largely based on a recent survey where people were asked what type of recreational activities/resources are needed in Webster.

While Webster has a population approaching seventeen thousand, less than 150 residents participated in the survey which I believe renders the survey statistically insignificant.

During a brief Q and A session following the presentation, we learned that the financial benefit to the town was only \$100K per year which equates to \$1000 per slip.

Following the presentation was a brief Q and A Session where attendees were allowed to share concerns. Most concerns were based on how the environmental quality of the lake would change, how boating safety would be impacted and if passed, would the funds be directed directly to supporting the lake or would they be redirected as the Board feels appropriate. Also discussed were the additional costs required to provide resources such as security to the docking area and additional personnel to manage and maintain this effort.

Just prior to the close of the meeting the leadership asked the attendees whether or not they would support less than 100 docks, potentially 40. Again, by show of hands, there was no support.

Personally, I can't imagine a business model that would show a true profit/financial benefit to our town in that scenario. If they only could generate \$100k of revenue based on 100 docks, I'm guessing 40 docks assuming \$40K of revenue it would be impossible to show

financially viability.

It was immediately clear that no one in attendance would support this plan, however many people shared that they would support a plan to better utilize Memorial Beach area in way that would represent less risk to the lake, while potentially providing a revenue stream to the town.

And finally, when asked multiple times by attending townspeople whether or not this would go to a vote or if it would be decided by the selectmen, the question repeatedly went unanswered.

It makes me crazy to think that this recommendation of adding 100 slips was even considered and that there are already talks between out Selectmen and MA governing bodies to explore the feasibility.

Honestly, I'd recommend taking a step back and taking a hard look at other improvements that could be made that would/could result in less environmental impact and risk while improving Webster's Recreational opportunities.

Webster is fortunate to have the lake and I believe everyone should have an opportunity to enjoy it, but it has to be carefully maintained with a long-term vision based on preservation.

A significant part of the town's revenue comes from the people who live surrounding the lake. If the quality of the lake is compromised, the property values will go down and taxes will be impacted.

Personally, I believe this recommendation has to be one of the most absurd recommendations I have ever heard. I'm surprised that it was even discussed when you look at the risk vs. reward.

Just one man's opinion.

Opacum Trust: success

To the Editor:

The Southbridge Credit Union Tour Opacum on July 8th was a huge success! We had 190 riders, doubling last year's attendance. With the support of our partners and sponsors, along with all of the riders, we raised \$14,000 for land conservation.

Tour Opacum took riders on routes that explored the picturesque countryside and small towns of the Quaboag Hills & Quinebaug Valley, including; Sturbridge, Brimfield, Brookfield, West Brookfield, Southbridge, Holland, Wales, Monson and Palmer. Experiencing the very land and communities that Opacum Land Trust is working to preserve provided riders

with a sense of purpose to accompany their fun ride, and the free beer and food provided by Rapsallion Brewery at Hyland Orchard.

Thank you to all of those who participated, volunteered or supported Tour Opacum! Special thanks to Hyland Orchard, Rapsallion Brewery, Southbridge Bicycles, The Sturbridge Tourism Association and our lead sponsor, Southbridge Credit Union!

Mark your calendar for July 7, 2019, for next year's Southbridge Credit Union Tour Opacum!

Placard or plate: which for a handicapped driver?

CHIEF'S CORNER

STEVE WOJNAR

Questions surrounding handicapped license plates and placards are rather frequent. A person was beginning the process of requesting one of these permits. They travel to different states and they asked what was their best option, license plates or the placard?

In addition, is there any issue with a Massachusetts placard being used in other states?

Disability placards and plates are described in the Registry Regulations under 540 CMR 17.00. The best type to apply for is left to the individual and their particular situation. Disability plates are issued to a vehicle owned by a qualified individual. Placards are special permits issued to the person.

Most people will choose the placard as it is transferable from vehicle to vehicle. This can be used in your second car as well as another person's vehicle while you are with it. This is an important consideration for most people as they weigh their options.

For out of state use, most of these disability markers are recognized. Massachusetts allows the use of out of state disability plates and placards. The presumption is these are issued according to some universal standards and a person would at minimum meet the Mass requirements. To be sure you can use them, it is always best to confirm the rules of the state you will be traveling in.

The fines are serious for misuse of these disability permits. Massachusetts General Laws Chapter 90 Section 2 calls for a first offense civil infraction of \$500 for misusing a disability plate or placard. The second and subsequent offense penalty is \$1,000.

These spaces are in their designated locations for the convenient use of facilities for those with limited mobility. Remember to observe the laws carefully and show consideration for those individuals who need this assistance.

Thanks again for your questions and comments. Please send them to me at the Dudley Police Department, 71 West Main St., Dudley, MA 01571 or email at swojnar@dudleypolice.com.

A prophetic but controversial Papal document 50 years Later

We are observing the fiftieth anniversary of the publication of the encyclical "Humanae Vita" written in 1968 by Blessed Paul VI. It was a teaching on God's design for the use of the gift of sexuality in marriage. The first words (from which is taken the encyclical's title) "the most serious duty of transmitting human life, for which married persons are free and responsible collaborators of God the Creator, has always been a source of great joy to them."

The publication of this encyclical was met with much dissent and hostility. The reasons for such widespread rejection are complex, yet it is an historical fact that 1968 was a year of cultural revolt against many institutions including the Church. The "sexual revolution" was well underway throughout Western culture. It seemed as though a love that is faithful, exclusive and fruitful, lived within a monogamous relationship between a man and a woman that often demands self-sacrifice was dismissed as archaic and unrealistic.

I think that it is worthwhile to reflect where we are today, fifty years later. It seems as though Blessed Paul VI made several prophesies in his encyclical. He wrote, "How easy it will be for many to justify behavior (contraception) leading to marital infidelity or to a gradual weakening in the discipline of morals." There is no question that the last 50 years have seen an increase in divorce rates, sexually transmitted diseases and abortions. The contraceptive mentality has led the young to believe they can have "safe sex", "protected sex" which have become the mantra of today's "hook-up" culture. Once you have driven a wedge between sexual intercourse and the conception

BEYOND THE PEWS

• • • • •

FR. MICHAEL ROY
ST. ROCH CHURCH

of a human being you can begin to justify abortion because a mistake has happened and it needs to be corrected. Rather than realizing what is happening is just what nature (the Creator) has planned.

Another of the Pope's predictions was the loss of respect for women. It is ironic that what we call "reproductive rights" which are claimed to be a boon to women have in reality led to the exploitation, abandonment and impoverishment of women. The encyclical states, "It is to be feared that husbands who become accustomed to contraceptive practices will lose respect for their wives. They may come to disregard their wives psychological and physical equilibrium and use their wives as instruments for serving their own desires."

Abuse of power by the government was another of the Pope's predictions. He wrote, "Who will prevent public authorities from favoring what they believe to be the most effective contraceptive methods and from mandating that everyone must use them whenever they consider it necessary?"

Haven't we seen this in the Health and Human Services policies of Obamacare. They have attempted to force even the Little Sisters of the Poor to pay for contraception. Forcing everyone to pay for contraception, sterilization and abortifacient drugs. This not only violates the First Amendment but it tries to make something evil appear good. It treats fertility as a disease that must be prevented.

Blessed Paul VI predicted that contraception would lead to personal abuse of power. He reflected, "If we do not want the mission of procreating human life to

be conceded to the arbitrary decisions of men, we need to recognize that there are some limits to the power of Man over his own body and over the natural operations of the body which are not to be transgressed." Wasn't he a prophet! Sex without babies has led to babies without sex. The whole industry that has grown up around in vitro fertilization treats babies as products rather than life flowing from love.

The sterile sex of contraception has led to the attempt to normalize another form of sterile sex; homosexuality. We have arbitrarily redefined marriage. Marriage from the beginning of history in every civilization has been about bonding and babies.

This determination to have unlimited dominion over our bodies, ushered in by contraception, has also helped give rise to physician-assisted suicide and euthanasia.

In his controversial encyclical Blessed Paul VI challenged men of science to "strive to establish a satisfactory clear basis for the moral regulation of offspring." Many have taken up this challenge and effective modern methods of natural family planning have been developed which help couples avoid pregnancy for the right reasons.

At a time in our American culture when the gift of human sexuality is woefully misunderstood and is distorted in such dramatic ways that had led to the degradation of women and weakening of family life, we should revisit the teaching of the saintly Pope Paul VI who suffered greatly as a result of proposing the true meaning of marriage and the proper use of human sexuality within the marriage bond, a bond that is always strengthened by mutual love and respect.

Let us continue to love one another,

Time to put excess cash to work?

FINANCIAL
FOCUS

DENNIS
ANTONOPOULOS

You'll always want to base your investment decisions on your own needs and goals. But there may be times when you might consider adjusting your portfolio because of risks and opportunities. Now may be one of those times.

Here's some background: In recent months, the Federal Reserve has raised short-term interest rates several times, and given its generally favorable outlook on the economy, it has indicated it may continue bumping up interest rates gradually over the next year

or so. The Fed doesn't control long-term interest rates, but these rates often follow the lead of short-term movements. However, longer-term rates haven't yet risen as much as shorter-term ones, which means the difference between short- and long-term rates is relatively small, historically speaking.

This doesn't mean you should make drastic changes to your portfolio. You still need to stick with the asset allocation that's suitable for your situation, which typically involves owning a certain percentage of growth-oriented vehicles, such as stocks, and a certain percentage of fixed-income securities, such as bonds. However, if you do have space in the fixed-income part of your portfolio, you may find the higher interest rates offered by short-term bonds and certificates of deposit (CDs) to be attrac-

tive. To take advantage of this opportunity, though, you will need to have the cash available to invest.

Some people hold too much in cash, waiting for interest rates to rise, or as protection against the risk of a market decline. But holding excess cash involves its own risk – the risk of not investing. So, if you have your cash needs covered, you may want to consider investing any excess cash.

To determine if you are holding excess cash, you'll need to review your entire cash situation. For example, do you have enough cash, or cash equivalents, to create an emergency fund of three to six months' worth of living expenses? This fund can be vital in helping you pay for things like a major car repair or an unexpected medical bill without dipping in to your long-term investments. And, of course, you need

enough liquidity to provide for your lifestyle, including your regular spending needs – your mortgage, utilities, groceries and so on. Also, you may want to set aside enough cash for a goal you want to reach in the next year or so, such as a vacation.

But if you have taken care of all these needs and you still have excess cash, you may want to consider putting this cash to work, possibly by investing in short-term fixed-income vehicles now being issued at higher interest rates.

And keep in mind that regardless of where interest rates are going, bonds and other fixed-income investments can offer some key benefits to investors. In addition to providing a source of regular income, these types of investments can help reduce the effects of volatility on your portfolio. While bonds can, and

will, fluctuate in value, they typically can provide more stability to your portfolio and tend to behave differently than stocks over time.

After years of historical lows, shorter-term rates now have risen to levels that are more attractive to investors. Take the time to review your situation, perhaps with the help of a financial professional, to determine if taking advantage of these rates may be appropriate for you.

Local officials push for judicial accountability

BY SENATOR ANNE GOBI, SENATOR RYAN FATTMAN, CHIEF STEVEN WOJNAR, AND JENNIE CAISSIE

Our Constitutional Republic is founded upon the idea that government is of the people, by the people and for the people, not above the people. No one serving in elected or appointed office should be above this standard, including those in our judicial branch.

In the wake of recent tragedies and loss of innocent lives, we believe it is time for meaningful, bipartisan reform in judicial accountability in Massachusetts.

Judges are appointed for life in Massachusetts, and command a position of power and respect. The prestige of their position is reflected in their compensation, benefits, and retirement because the decisions they make carry great consequence, altering the lives of our citizens and society. But to whom much is given, much is required. And what is required today is far different than the process our Founding Fathers established in the Massachusetts Constitution in the 1780s for judicial accountability.

Judicial accountability only exists in two forms, the first of which is extremely rare, and the second of which is surreptitious: (1) impeachment as out-

lined by the Constitution (2) confidential judicial evaluations that are performed by the Supreme Judicial Court of each judge, shared with them, and then destroyed.

Under the first method of accountability, only three judges have ever been removed from office since the Massachusetts Constitution was enacted in 1780. The last judge removed by the Governor's Council was before the Civil War in 1821. Under the second method of accountability, we simply do not know the consequences for each judge as the process is not salient to the public.

In the near-term, more scrutiny and transparency is required in the judiciary. First, Massachusetts General Law Section 211 must be changed to allow this to happen. Judicial performances evaluations should not be confidential, and only reviewed by a small group of unelected judges. These performance evaluations must be public and available to the Governor's Council, the elected body responsible for vetting and appointing judges, and to elected members of the legislature serving on the Senate and House judiciary committees. This increased transparency on the conduct of life-time appointed judges will provide greater insight into our judicial system.

Second, the Governor's Council should be able to conduct open, transparent, and public hearings reviewing judicial performances.

Finally, there must be a constitutional amendment brought before the legislature to enhance judicial accountability that empowers the Governor's Council to review a trial court judge every five years, and by super majority, be able to unappoint said judge. This process will be lengthy, requiring citizens to collect thousands of signatures, two Constitutional Conventions of the Legislature over a four-year period where 50 members elect to vote affirmatively, and a vote on the ballot by the voters of the Commonwealth. Although arduous, it is a worthy and important endeavor we hope to lead.

Let us be very clear; we do not want to elect judges, nor do we want to encroach upon the founding father's vision of an independent judiciary. We understand the need to have a separate but equal judicial branch. But there must be a healthy balance between independence and accountability.

Are we to believe in a state that boasts of the world's oldest Constitution, that in over 200 years of existence, only three judges have been worthy of criticism so great they were due for removal? Recent tragedies where clear patterns

of direct and indirect judicial decision making irrevocably impacted the lives of law enforcement officials and families answer the question: no. Poor judgment as evidenced by poor outcomes, or poor behavior by a life-time appointed official, should not only call into question the opinion of said judge, but also question their very appointment.

Moreover, these efforts are not designed to impede upon the symbiosis of three independent branches of government, but to simply align democratic intentions and parity between officials dully appointed or elected in the Commonwealth. No one should be above the law, and while executive and legislative branches have continued to operate in the same continuum of rules and accountability set out in the original constitution, the judicial branch has not. It's time for that to change.

THANK YOU.

police training in the state. One of the things is if you have your home owner's insurance policy there's a percentage that goes to the fire academy to fund the fire training. We'd been looking for years for something similar," Wojnar said.

Previously there were attempts to tie the find to auto insurance, registrations and other sources of income but none of those plans panned out as expected. This latest bill keeps the automobile theme but attaches the fund to rental cars instead, a concept brought forward by Chief Brian Kyes of Chelsea who learned of a similar program in California.

"What it is now is it adds a two-dollar fee to a rental car contract so if you rent a car for a day, a week or a month you pay two dollars and that goes to the municipal police training committee to fund that source," Wojnar said. "This is going to generate up to \$10 million. We're anticipating it's probably going to be between \$7 million and \$8 million,

but it should cover a lot of things that are in there even one particular thing that we're looking at. It costs us \$3,000 to send a guy to the police academy. That's just the entry fee so that's not including his salary and everything else you've got to pay while they're gone," Wojnar said. "That's one of the things we're hoping to eliminate from that."

Chief Wojnar called it an honor to be a part of the signing ceremony which was heavily attended by his fellow chiefs. During the ceremony, Governor Charlie Baker commented that supporting law enforcement has been a long-time goal of his administration and he is proud to sign a bill into law that will help with training for the future protectors of Massachusetts communities.

"In the wake of recent tragedies in Weymouth and Yarmouth, the passage of this bill represents an important opportunity to improve police training and recruitment at the local level and do more to keep law enforcement and our communities safe," Baker said in a press release. "We appreciate the collaboration from the Legislature on this important issue."

CALLAHAN

continued from page 1

Callahan brings many qualifications and experience to her new role as town manager.

"Call me strange but I get very much excited about transforming communities and working together with departments," says Callahan at her interview.

Callahan explains that she takes a very hand on approach to all that she does in the communities she serves.

"I highlight the work that my board does, that departments do, and about things that are really worth celebrating," Says Callahan.

Callahan discusses how grave times are in other communities across the state. Callahan shows that she is willing to communicate with the public during times of crisis and times of joy.

"I work with many of the depart-

ments when we have a crisis. I want to work with the Board of Selectman directly," says Callahan.

Callahan, while a big entity in the governments she serves, has also worked in a hunger relief program for many years.

"I have hosted one of the largest Easter Egg Hunts, it was meaningful to my husband and I," says Callahan. Callahan does not live in Oxford but is dedicated to the town.

"I think it is important to be in a community where you feel you have a good fit. I have family that lives in Oxford. More than 30 years ago I was a visiting nurse here," says Callahan.

Callahan shows that she wants to be involved in the community she serves. Contract negotiations will begin this month. Callahan has to give a 30-day notice to her former employer and will be involved in a transitional period between communities.

DRUG BUST

nity as soon as we could. Officers Keith Remillard and James Annese put that whole thing together," the chief said. "They did a pretty good job working with it. We got assistance from the tactical team from the Central Massachusetts law Enforcement Council that came through and helped with the entry and everything else. It's good to get some players off the street that were causing some issues over there."

The search warrant was the result of complaints from a concerned citizen who claimed to have been assaulted and that drug sales were taking place at the residence. This is the second time

Dudley police have responded to drug concerns in that area of town. This time police were able to seize around 90 grams of "crack" cocaine, over \$3,000 in cash, and a loaded 9mm firearm.

Five arrests were made as a result of the bust. Benjamin Wilterdink, 28-years-old of Hampton, CT, 29-year-old Jamal Tillman of New London, CT, 30-year-old Eric Brown also of New London, 44-year-old Sherri Wright of Brooklyn, CT, and 44-year-old Shawn Gliniecki of Dudley were all charged with trafficking cocaine and conspiracy to violate the Controlled Substance Act. Tillman also faced firearm charges while Gliniecki was charged with possession of a dangerous weapon which was confirmed to be a nunchaku.

Crossbow hunting fails to make it out of committee again

THE GREAT
OUTDOORS
.....
RALPH
TRUE

By now most sportsmen are aware of the failed attempt to pass a crossbow bill in Massachusetts, allowing any licensed person to use them for hunting. Although disabled hunters are allowed to use one, it was disappointing that the bill failed to even get it out of committee. There was little hope that it would become law among most hunters in the state, as it required the legislature to back the bill. Many politicians are not hunters and care very little about hunting and fishing regulations, and have very little knowledge about wildlife conservation. Hunting with a crossbow would allow hunters to harvest deer in populated areas. Hunting deer or turkey with a bow needs to be changed from 500 ft. to 300 ft. from an occupied dwelling, and even closer with landowner's permission. Wildlife has learned to adjust to encroachment by humans, and feels safe living within 50 or 100 ft. of homes.

This past week I was involved in a conversation about Mass. Fish & Wildlife and the new appointments that are being made within the agency. Why are so many employees leaving the agency? Many are at that age for

retirement and want to enjoy time with their families. That is a good thing. I was also told that many new employees are college graduates that do not fish and hunt? This is not good for the future hunting and fishing public. One of the qualifications should be that the new hires hunt or fish.

New wannabee legislators are circulating their papers for numerous positions throughout the state. It is very important that sportsmen get out to vote for the candidate that will work for you!!! Every year we lose more of our rights to own fire arms and to enjoy the great outdoors. There are less hunting and fishing activities by the younger generation today because of parents' failure to expose their children to the sports.

Are you ready for another hike in your hunting and fishing license? Do not be surprised to see it at next year's renewal of your hunting and fishing license. The average hunter or fisherman has little time to hunt or fish in today's world, and the increase will only deter new hunting or fishing residents of our state from participating.

We cannot afford to lose any more of the hunting and fishing public.

Massachusetts wildlife populations are exploding on all fronts. Turkey populations are out of control in some areas, as well as deer populations. An increase in the daily bag limit is warranted over and above the recent extra hunting days recently approved. Antlerless

deer permits are being cut in some zones in Massachusetts and deer hunters are questioning the reason for the cuts. Recent winters have been kind to wildlife with deer and wild turkey thriving. Goose populations are also a continued nuisance, polluting our lakes and ponds annually. The big problem there is the private property providing sanctuaries for the geese during hunting season. No hunting in these areas has allowed the goose populations to get out of control in many areas. The recent increased daily bag limits will not help if they cannot be hunted.

Feeding any waterfowl is against the law, but it is rarely, if at all, enforced. The bottom line is that hunting is the only means of controlling our wildlife populations & keeping them healthy. Just imagine if deer hunters did not harvest more than 10,000 deer annually. Disease and starvation of the animals would be overwhelming, and car & deer collisions would rise dramatically causing death and injury to family members.

Saltwater fishing has slowed on many fronts with Block Island area giving up very few stripers last week according to a Snug Harbor report this past Saturday. Bluefish have started to provide some action for party boats and other small charters. Bluefish are also showing along the beaches and at the Point Judith lighthouse. A few mako sharks are being caught at the Mud Hole with some false albacore showing around the Point Judith lighthouse.

A king salmon caught in the Salmon River last year.

Red Top Bait shop reported inconsistent action on stripers with no real blitz. Being there at the right time is the key to all fishing.

Lake Ontario fishing is starting to heat up!! August is the start of the king salmon run and provides some great

fishing. More on this subject in the coming weeks. This week's picture shows a very happy angler with a king salmon she caught last year on the Salmon River in upstate New York.

Who Can Adopt?

Can you provide the guidance, love and stability that a child needs? If you're at least 18 years old, have a stable source of income, and room in your heart, you may be a perfect match to adopt a waiting child. Adoptive parents can be single, married, or partnered; experienced or not; renters or homeowners; LGBTQ singles and couples.

The process to adopt a child from foster care requires training, interviews, and home visits to determine if adoption is right for you, and if so, to help connect you with a child or sibling group that your family will be a good match for.

To learn more about adoption from foster care, call the Massachusetts Adoption Resource Exchange (MARE) at 617-6273 or visit www.mareinc.org.

The sooner you call, the sooner a waiting child will have "a permanent place to call HOME."

officers from varying communities have come to learn first-hand about drones and how they can help their communities” says Gagner.

Drones are being used to help with search and rescue missions. A number of examples and exercises were being set up for the officers to learn from. For example, a doll, about the size of a three-year-old child was dressed in clothing and set-up in the distance of the field in Greenbriar where the hands-on training was taking place. Those operating the drone would raise the machine into the air and look for the doll. There are many programs and attachments to the drone that can help with these real-life scenarios. There is also night a night vision lens that proves its importance with search and rescue in the dark. Officers take turns practicing and asking questions. In one scenario an officer plays the role of someone stuck and in need of water. The drone picks up a bag that has a bottle of water and flies off to deliver this to the person in need. Other scenarios where this would work would be someone lost in deep water and the drone can deliver a life jacket before

any responders could reach them in time. The possibilities are endless with this new technology and the officers are excited.

“We always look for ways to help our community and citizens,” says Randy McCarthy of the Auburn Police Department.

“Oxford has launched the future of law enforcement search and rescue with drone accessibility,” says Oxford PD Chief Anthony Saad. “With Craig Gagner leading, we are helping other communities learn what assets drone can be.”

Saad was impressed with how many officers joined Gagner in the training sessions. Uleski from Dart Drones went over many tactics that the drones can follow with different applications and equipment. Officer Mike Daniels from Westborough PD took control of the drone and felt comfortable with the maneuvers. Other officers involved in the drone training were officers George Degenova from Douglas PD, Eugene Kolimaga from Gardner PD, Jeff Noel from Northborough PD, Cliff Luce, Jeff Johnson, and Rich Trainor from Westborough PD. Officers from all over Massachusetts are taking to the skies for their community's service and protection.

Duval helps Oxford rally, but Quabbin wins Auburn Summer League

The Oxford High summer basketball team fought hard, but came up short in the final of the Auburn Summer League to Quabbin Regional, 52-42.

BY DEAN P. ST. LAURENT
SPORTS CORRESPONDENT

AUBURN — A second half surge by Oxford High, led by their dynamic point guard Alex Duval, came up short in the end as they lost the Auburn Boys’ Summer Basketball League championship game, 52-42, to Quabbin Regional on Wednesday, Aug. 1 at Auburn

High. Oxford trailed big, 33-14, going into the second half of play, but toughness and grit showed in the final 20 minutes as the Pirates cut the lead down to as little as four points. “They are some of the toughest kids I know,” explained Oxford summer league head coach Matt Davis. “When kids

play for me it is not always easy, I am very demanding and these kids accepted that challenge and then some. That is why we made it to the Championship game. To make it this far it has to do with talent, but also that little extra and these kids have it. Oxford guys have that edge to them and these guys are proof of that.” “We were down 20 and we made it a six-point game with a few minutes to go,” Davis added with a smile. “These kids don’t give up, when you’re missing three-fifths of your starting lineup in the Championship game and your team doesn’t care — that’s toughness.” A large part of the comeback was Duval’s ability to finish at the rim and hit crucial shots when they needed him to do so. Duval scored a game-high 25 points in the contest, but scored 16 of those 25 in the second half. At one point the lefty scored seven straight points to make it a four point game (36-32) with 8:29 to go in the game. “I can’t say enough about that kid,” expressed Davis. “Clearly by watching him he is a very talented kid, but that is a kid who I had on my AAU team in sixth grade. Not only did he play on my AAU team, but he was the guy, their main player. He also played up a couple age groups. He played on the 11th grade team when he

was in ninth grade, so that is a kid who played against seasoned varsity guys coming into ninth grade. I think that it’s clear that he has the ability to dominate.” Oxford not only has a rising star in Duval running the point, but also has the talent and coaching staff to be as successful this coming winter, if not more successful than they were last season. “I think they can do very well. They are defending SWCL C Champions and I they can go out and do it again,” Davis said confidently. “They play a lot of

basketball and I think that is important. With basketball you need that court time, and you can’t just be a good athlete. You have to have skills and these boys play a lot of basketball. “They have a great head coach in Coach [Anthony] McDonald, and a great coaching staff,” Davis added. “They have Keith Duval and Dave Aldridge. That’s a staff right there and I think with the kids’ willingness to fight they will have a successful season.” Oxford finished the summer season with a record of 9-4.

With Auburn Summer League in limbo, Pappas, DelloStritto step up to keep it alive

BY NICK ETHIER
SPORTS STAFF WRITER

AUBURN — The Auburn Boys’ Summer Basketball League has been around town for over 35 years but, this summer, it appeared as if it could be coming to an end. Some teams switched to various leagues in Milford and Worcester, while Auburn High winter head coach Andy Niedzwiecki — who had been running the summer program for the past couple years — had taken the job at his alma mater at Sutton High. The town of Webster showed interest in taking over the summer league, but not enough teams committed in time. With teams still looking for a place to play, but with time dwindling down, a couple Auburn residents took initiative.

After receiving a phone call from Auburn Superintendent Maryellen Brunelle, Kristen Pappas, Director of Recreation and Culture for the town of Auburn, was asked to run the league and keep it inside at Auburn High. Pappas has run the girls’ summer league in Auburn for the past 10 years, and it has blossomed into 15 teams competing, so she took the challenge of taking over the boys’ league hoping to make it just as successful. “I worked together with [Auburn High Athletic Director] Brian Davis and got a whole bunch of phone numbers,” Pappas explained following the girls’ league championship game on July 26. “Pete DelloStritto was instrumental in helping get the teams. We worked together, I couldn’t have done it without him.” DelloStritto, a 24-year resident of Auburn, was appointed as the head official after gaining enough interest from local teams. “Those that didn’t have a place to play said that they were all in,” explained DelloStritto before officiating playoff games on July 25. “It was a huge endeavor to pull together in such a short period of time, so we’re happy to keep it going. The tradition of Auburn basketball has been going long before myself.” Bob Muir ran the Auburn Summer League for 35 years before giving way to Niedzwiecki, so DelloStritto and others didn’t see the league vanishing as a viable option. “We didn’t want this to go away,” he said. “We put our heads together and we dug deep.” In all, 10 teams took part at any

given time this summer. They included Auburn, David Prouty, Leicester, North Brookfield, Oxford, Quaboag, Millbury, Great Brook Valley, St. Mary’s and Wesley. When Quaboag was unable to produce enough players halfway through the season, Quabbin stepped in and took their place. The finals were then set on July 30 when a pair of quarterfinal games preceded two semifinal contests. First, St. Mary’s and Quabbin moved to the semifinals following victories. They then met Oxford and Great Brook Valley, respectively, who reached the semifinals the week prior during their quarterfinal round games. In the semifinals, Oxford and Quabbin both won to advance to the league championship. Now that the Auburn Summer League has made it through the year, DelloStritto wants it to stay for good. “Our hope is to sustain this league and keep it growing as it is an institution in the area,” he said. DelloStritto added that the Auburn Webster Lodge of Elks, Fuller Automotive, Holiday Pizza and Weepin’ Willies were four key Auburn sponsors that “banded together to help defray the cost of this league.” DelloStritto also had high praise for Pappas for jumpstarting the league with little time to spare. “Kristen Pappas stepped up big to run the league,” he said. “I was asked to assign officials with Jimmy Riley. Most proud of rallying 10 teams in a short span of time and pulling this together in basically two weeks.” He also thanked Niedzwiecki for

Auburn Boys’ Summer Basketball League quarterfinal and semifinal round games were played on Monday, July 30 at Auburn High to set up an Oxford-Quabbin championship.

“helping pave the way.” Pappas noted that she will run the league again if asked to do so. And if she does, she would like for the league to continue to grow. “I would like to get 16 teams next year,” she said.

Bartlett boys’ soccer alumni invited to 50-year anniversary reunion

The 50-year anniversary reunion celebration banquet for Bartlett High boys’ soccer alumni is set to be held at the Polish American Veteran’s Banquet Hall on Ray Street in Webster on Saturday, Aug. 25 from 6 p.m. to midnight. This event will bring together a collection of players and coaches spanning the entire history of the program, allowing all who attend to look back on and celebrate their playing days, their teammates and the multiple memories that they may not have shared in quite some time. There are commemorative T-shirts and a newly written book, which chronicles the history of the program as well as the many records that have been set throughout the first 50 years on sale for this event. If you, or anyone you know, would be interested in attending, please register to attend or purchase the commemorative items, whether you can make the event or not, by going to the following website to fill out the

order form at: <https://tinyurl.com/BHSSoccer50Years> or you can email Ryan Renauld at rrenauld@webster-schools.org for any information. All proceeds raised by the event will go toward the boys’ soccer program at Bartlett High.

Oxford Little League Memorial Golf Tournament comes to Pine Ridge Country Club

The seventh annual Oxford Little League Steven J. Horgan Memorial Golf Tournament is set for Sunday, Sept. 23 at Pine Ridge Country Club in Oxford. The 11 a.m. shotgun start (\$100 per player) also features good food, prizes, contests, sport collectibles and a silent auction. Sign-up and sponsorship information is available at www.oxfordlittleleague.com or by emailing horgangolftournaent@gmail.com.

The sign-up deadline is Friday, Sept. 14. Tee and green sponsors are also available for \$200. Interested in dinner only? The cost for that is \$25 per person.

Webster Youth Soccer now accepting registrations

Webster Youth Soccer is accepting registrations for its Travel and In-town Leagues for boys and girls in grades kindergarten through high school. Parents can register their children online via <https://www.sportsmanager.us/RegistrationWizard.htm> or by visiting the Webster Youth Soccer website at WebsterYouthSoccer.org and clicking on the Registration button. The deadline for In-Town is Aug. 15. Registrations may be accepted after the deadlines if space permits, however, a \$25 late fee will apply. The fall season starts in August.

Laid Back Competitive Baseball League concludes regular season, gears toward playoffs

STURBRIDGE — Now in its seventh season, the Laid Back Competitive Baseball League (LBCBL) has grown to a 10-team league with a full regular season slate of up to 14 games played. And on Sunday, Aug. 5, that regular season came to a close.

Below is the league's history and mission statement, found on the LBCBL website.

“Our History

The Laid Back Competitive Baseball League (LBCBL) was founded in the summer of 2012, by the current Director of Baseball Operations, Cody Mundell. Nearly 6 seasons ago Cody rounded up 5 teams to take part in our very first season. What was his vision you ask? To start his own league, where guys who are still looking to play some baseball can do so in a fun and competitive atmosphere. But most importantly everyone is welcomed!

Over the past few seasons Cody has work diligently growing this league from the ground up. He has invested countless hours, and money into the league, to give players of all skill levels a place to play a good brand of baseball. We have since reached 10 teams spread across a number of locations in Central Massachusetts including: Sturbridge, Southbridge, Oxford, Shrewsbury, North Brookfield, Dudley & Charlton. Our players are of all skill levels: former professionals, former collegiate players (all different divisions), high school standouts, those who did not stand out in high school, and guys who have never played. Even dad can play! What's most important, is that we all just want to play.

For years we have tried our very best to provide a fun/laid back, but competitive atmosphere. It sounds like it doesn't make sense, but once you play you will understand. We strive

to be as affordable and convenient as possible. We typically play all of our games on Saturdays and Sundays in the mornings, and our average player pays roughly \$100 to play (can be more depending on team size and uniform purchases). These fees can be reduced by team and league sponsors given by local businesses for marketing oppor-

tunities on social media, our league website. Some team sponsors may also have their name put on uniforms. The league encourages all players to try to get sponsors for their team if at all possible.

If you don't want to hang up the spikes, or you don't want to play softball, or you just want to play. Join us!

We are always looking for more players/teams!

Our Mission

Moving forward, we hope to continue expanding across the immediate area in locations such as: Spencer, Leicester, Auburn, Millbury, Sutton, Webster, Douglas, Grafton, Northbridge, Uxbridge & Worcester. The deadline for putting a team in for the 2018 season has passed, however we are always taking deposits for our next season. If you are interested in joining the league, please do not hesitate to reach out. Don't forget to ask about getting on our sub list!

Fairly soon, we will be filing to become a 501-c3 non-profit. It will be our mission to work with local communities to help fix up the fields that we are using. A portion of our proceeds will be used to help make the baseball experience the absolute best for our players, while the other portion will be used to help maintain, fix, & restore the baseball fields in the communities we play in. In doing so we hope to build lasting relationships with local little leagues and municipalities for years to come!"

Eight teams have reached the playoffs, and those games start on Saturday, Aug. 11. To check out a game, please see the locations below.

Shrewsbury at Oxford Bomb Squad, 11 a.m. (Horgan Field at Greenbriar Park)

D.C. Whitecaps at The Alliance, 11 a.m. (North Brookfield High School)

Three charged with armed robbery

Christopher Say

Phillip Smith

Trent Nicholopoulos

On Friday, July 27, 2018 at approximately 7:30pm Officers were dispatched to the Big Y Supermarket parking lot to investigate the report of an armed robbery involving a firearm that had just occurred. Dispatch advised responding units the suspect vehicle was a gold colored Chevy Malibu or Impala type vehicle with three occupants.

Upon their arrival on scene, officers spoke with the victim who reported

the following; while waiting in his vehicle with his 9- month old daughter a vehicle being operated by a male subject (later identified as Christopher SAY) pulled up to the passenger’s side of the victim’s vehicle.

At this time, a second male subject (later identified as Phillip SMITH) exited the vehicle and approached the driver’s side of the victim’s vehicle and removed the car keys. A third male subject (later identified as Trent

NICHOLOPOULOS) then exited the vehicle and approached the passenger’s side of the victim’s vehicle and pointed a handgun at the victim and demanded money and made threats to shoot him. SMITH then punched the victim several times in the face area and both NICHOLOPOULOS and SMITH then got back into the vehicle with the driver (SAY) and fled the scene prior to police arrival. The victim was

not seriously injured and was able to provide a description of the three suspects.

A BOLO was immediately issued to area police departments for the vehicle and a short time later, members of the Webster Police Department reported they had the suspect vehicle stopped in the Town of Webster, MA. Webster Police also reported they had recovered the firearm suspected to have been used during the commission of the robbery and had all three suspects in custody. Officers from our department then proceeded to Webster, MA and transported the three suspects to Southbridge Police Headquarters. The property stolen during the commission of the armed robbery was also recovered.

As a result of this investigation, the following were charged:

28 year old Trent

NICHOLOPOULOS of 43 Hillside Ave in Webster, MA was charged with armed robbery – joint venture and assault and battery with a dangerous weapon to wit a firearm.

40 year old Phillip SMITH of 121 Whipple Street apt#22 in Worcester, MA was charged with armed robbery – joint venture, assault & battery and with intimidation of a witness.

27 year old Christopher

SAY of 19 Nelson Street apt#2 in Webster, MA was charged with armed robbery – joint venture.

All were held at Southbridge Police Headquarters pending their release on bail and/or their arraignment in Dudley District Court on Monday July 30, 2018. The Webster Police Department charged the three suspects with various firearm violations.

Harvest and preserve herbs for flavorful meals year-round

GARDEN
MOMENTS
• • • • •
MELINDA
MYERS

Add a flavorful boost to any meal with garden-fresh herbs. You’ll quickly discover the difference fresh herbs make when preparing any meal or dessert.

Harvest herbs whenever you need them for cooking or garnishing a favorite dish. Adjust the quantity of herbs used to allow for variations in flavor intensity and your family’s preference.

In general, you will need two to three times more fresh than dried herbs. So, if the recipe calls for one teaspoon of dried parsley use one tablespoon (three teaspoons) of fresh parsley leaves.

Use a pair of garden scissors or pruners for harvesting. Make your cuts above a set of healthy leaves. The wound will close faster, and the remaining plant will look better. Rinse off the clippings and remove tough stems and any discolored or damaged leaves and start cooking.

Store the extra, unwashed leafy herbs in a vase of water and loosely cover with a plastic bag. Keep basil on the kitchen counter and cold-tolerant herbs like parsley and cilantro in the refrigerator.

Wrap thicker-leafed herbs like sage and thyme in a paper

towel, set inside a plastic bag and place in a warmer section of the fridge.

Don’t be afraid to keep harvesting. Regular picking encourages new growth for future harvests. Just be sure to leave enough foliage to maintain plant growth. You can harvest as much as 50 to 75% from established annual herbs and one third of perennial herbs at one time.

Clip off leaves and stems before the plant begins flowering to encourage more tender growth. You’ll get the greatest concentration of flavor when the plant has formed buds, but before they open. However, don’t discard the flowers if you’ve waited too long. Enjoy the beauty and added flavor of basil, lavender, lovage, monarda, oregano, rosemary, sage, sweet marjoram and thyme blossoms in salads, soups and other beverages.

As the season winds down, consider preserving some of your favorite herbs to use all winter long and to give as gifts.

Drying is one of the easiest ways to preserve your herbal harvest. Collect large amounts of basil, rosemary, marjoram and sage just prior to flowering. Cut the plants back about halfway in the morning after the dew has just dried off the leaves. Rinse – do not soak – the clippings and then remove any damaged or dried leaves.

Gather the herbs into small bundles and secure with a rubber band. As the stems shrink, so does the rubber band. Use a spring-type clothespin to hang

the bundles from a clothesline or hanger.

Store the bundled herbs in a warm, dry, airy place out of direct sunlight for drying. Some gardeners cover the drying herbs with a paper bag to keep them clean.

You can also dry herbs in the microwave. Remove the leaves from freshly harvested herbs. Evenly spread two cups of washed herb leaves on a double thickness of paper towel. Microwave on high for four to six minutes, depending on your microwave.

Fully dried herbs will be brittle and rattle when stirred. Store dried herbs in an airtight container for later use. Label the container with the name of the herb and date preserved.

Then add these flavorful additions to your meals throughout the winter. You’re sure to savor the flavor and memories these homegrown preserved herbs add to every meal.

Tips to beat the heat!

Recent nearly triple digit temperatures found young and old alike literally losing their cool! If the rising mercury puts a damper on your “hot fun in the summertime,” read on for a medley of both old (previously shared) and new (recently discovered) tips to help you beat the heat!

Cool down tips for the home:

- *If you have mini blinds and find that closing them to keep the house cool keeps out too much light, try angling them upwards. This way, the light is reflected up and into the room, but the heat of direct rays are kept away.
- *Pulling the shades down in east and west windows during a heat wave can lower an inside temperature as much as 20 degrees, as compared to unshaded windows!
- *Using a window air conditioner? To boost its efficiency, use a fan with your a/c to circulate the cool air throughout the home. Fans are best placed on north facing, shaded windows, if possible.
- *Never place lamps or TVs near your air conditioning thermostat. The heat from these appliances will cause the air conditioner to run longer.
- *Electronics, such as TVs and computers not only emit phantom energy but they produce heat even when shut off. Unplug these devices whenever possible.
- *Compact fluorescent lights not only use less energy than incandescent bulbs, but they burn much cooler, preventing an unnecessary source of heat.

**

Hints to keep cool:

- *Natural fabrics such as cotton keep you cooler than synthetics. Breathable fabrics such as organic cotton helps to wick moisture away from your body, helping you stay cool and dry. And be sure to wear loose fitting clothes on hot days to allow air to circulate and keep you cool naturally.
- *Want sweat free slumber? Sleep on 100% cotton sheets. And swap out synthetic pillows for cooler feather ones. Better yet, switch to a buckwheat pillow, which is the coolest of them all!
- *Cool down quick by taking mini baths

TAKE THE HINT
KAREN TRAINOR

or showers throughout the day when possible. Tepid water works best to refresh.

- *Cool off instantly by placing a cold compress on your forehead or an ice bag on your head or on the back of your neck.
- *Drink plenty of chilled, non-alcoholic fluids during a heat wave. Experts advise avoiding caffeinated, sweet, or alcoholic beverages as they act as diuretics and can play havoc with your body temperature.
- *On hot summer days, you'll sweat less if you eat foods high in water content, such as fruit and vegetables. Also avoid heavy meals that are harder to digest.
- *If you are exercising or are performing physical work during a heat wave, be sure to drink two to four eight ounce glasses of water an hour. When possible choose sports drinks instead.

ONGOING EVENTS

COMMUNITY MEALS: Blessed Backpack Brigade Community Fellowship Meal served from 5-6 p.m. American Legion Hall, 9 Houghton St, Webster. Please note that there is no handicapped access, but we will have volunteers to provide you with assistance. Free hot meals to anyone in need.

Everyone is welcome. Join us for great food, fellowship, and fun! For more information, or to donate or sponsor a meal, please call Lisa Berg at 508-330-7242 or Lauri Joseph 774-230-8988. Blessed Backpack Brigade Community Fellowship Meals are served the 2nd and 4th Wednesday of each month at the American Legion on Houghton Street, Webster.

ALZHEIMER’S SUPPORT: The Webster Alzheimer’s Support Group meets the second Monday of each month at Webster Manor, 745 School St., from 6-8 p.m. Anyone in the area who feels they are in need of help, doesn’t know what to do, or is a caregiver for someone with Alzheimer’s, is invited to attend and express their concerns regarding the care for their loved one. The members of the group will discuss the ways, means, and the help you will need as your loved one progresses in this disease.

NUMISMATICS: Looking for a new hobby? Come learn about the hobby of Coin Collecting. Or maybe you are an old time collector. Our club, the Nipmuc Coin Club, has both. We learn from each other through our monthly guest speakers, show and tell presentations, monthly coin auctions and free attendance prizes. Our group loves to share their knowledge with each other. Each month we have a simple dinner with dessert and refreshments just prior to our meeting, which allows us time to socialize too. Fourth Wednesday of each month at 6:30 p.m. in the Oxford Senior Center located at 323 Main St., the building directly behind Oxford Town Hall. For information contact Dick Lisi at (508) 410-1332 or lisirichard15@yahoo.com.

Don't settle for poor-quality vinyl windows.

Not only can they look shiny and low-end, some poor-quality vinyl windows can warp, leak and become drafty after just a few years. Our windows are made of our exclusive Fibrex[®] material, which is twice as strong as vinyl.

Unlike some other companies, we warrant our windows and installation.*

Renewal by Andersen is the full-service replacement window division of Andersen Corporation, and because they've been around for 115 years, you know we'll be around to stand behind our window, our service and our installation.*

CRAFTS/HOBBIES

Emerging trends in crafting

“Why buy it when you can make it yourself?” is a mantra many crafters or do-it-yourselfers live by. Crafting can be an excellent outlet for self-expression and an entertaining way to pass the time. Many crafters even turn their hobbies into successful business ventures.

This year certain trends are poised to take crafting by storm, while fads of 2014 should continue. Those making the rounds on Pinterest® and crafting blogs may discover the following crafts are trending in 2015.

NATURAL ELEMENTS

Crafters are taking their cues from nature, and you’re certain to find natural elements, such as wood, bark and burlap, in craft projects. Distressed finishes on furniture and photo frames will still demand attention. Do-it-yourself projects, such as turning a slab of a tree trunk into a table or upcycling wooden shipping palettes into shelving, also will grow in popularity. Whenever working on designs that feature natural materials, try to repurpose elements whenever possible for the most rustic, authentic feel.

CHEVRON AND DIAMONDS

Those sprucing up home decorating elements with stencils or chalk paint can find inspiration in many places. Patterns that continue to show up in abundance include chevron and various incarnations of the diamond. It’s easy to dress up just about any element with some well-placed stenciling, which does not necessarily require a wealth of skill or experience. Stencils also can be used on flooring to create a faux area rug effect.

COLOR OF THE YEAR

If you get giddy over the warmth of browns and reds, you will be enamored with Pantone®’s 2015 Color of the Year. The authority on color and a provider

of color systems, Pantone® has chosen Marsala to be the “it” shade for 2015. Blending burgundy and brown tones to create a hue perfect for filling a wine glass or painting dining room walls, you will see plenty of this robust shade in decorative elements and clothing in the year ahead.

BRINGING THE OUTSIDE IN

An ecologically sound and creative trend for spring involves crafting your own garden terrarium. Terrariums can be made out of just about any shaped glass or plastic container. Use hardy plants and a moisture-holding sub-

strate to help your terrarium flourish. Terrariums can be interesting focal points for any room, and they’re a creative use for empty vases, aquariums and other containers collecting dust.

PAINTING ON CANVAS

Each year brings with it a new crafting obsession. This year it’s poised to be watercolor painting. Classes are bound to pop up in craft stores and other hobby centers near you. Or you can experiment at home with just a few basic tools.

Another growing paint trend is to enjoy a ladies’ night out that pairs painting with wine and socialization.

Participants work on a painting over a predetermined number of sessions and then take their masterpieces home.

SPRING INTO GREEN

Green hues and floral and foliage patterns for decorating will be popular this year. Anyone can liven up interior spaces with elements that borrow from nature, including leaf patterns and flowers.

Crafting continues to be a popular form of expression and a beloved pastime. Certain trends emerge each year that set the course for do-it-yourself projects.

Scrapbooks can help document your year

Showcase the special memories of the year ahead by starting a scrapbook.

Many interesting and special events take place during the course of a typical year. While the trend is to share photos and anecdotes via social media, these memories tend to be forgotten soon after they are posted. Rather than

relegate birthdays, holidays, school milestones, and other such yearly events to the black hole of cyberspace, crafty men, women and children may want to display them in more prominent ways.

Scrapbooking is a popular

hobby that can help people document various events over the course of the year. But scrapbooking can be much more than that as well. Scrapbooks can serve as valuable resources that speak to the way life once was.

Such traditions are not new. Books highlighting family memorabilia, such as recipes, poems, letters, and illustrations, were popular in England as early as the 15th century. Even school yearbooks are a type of scrapbook, highlighting students and events in a single convenient book.

The reasons for scrapbooking are the same today as they once were. Scrapbooks preserve memories, record family stories and pass down information through generations. Scrapbooks can even be customized in any manner their creators desire.

For those who have resolved to devote more time to documenting happy times and special events in the year ahead, scrapbooking is a great way to do just that. Here’s how to make the process creative and successful.

- Devote a box to “scraps.” At the beginning of the year, set aside a medium-sized box, such as a shoebox, that can store various items you want to include in your scrapbook. These may include ticket stubs, receipts, brochures from trips, or any other items you deem worth saving.
- Make time to scrapbook. Set aside a few days each month to go through collected items

and organize them so you have an idea of what will be included on your pages. Every event may not make the final cut, but that’s up to you.

- Indulge in some craft-store shopping. Not everyone has the time to design each scrapbook page from scratch. Fortunately, there are numerous pre-designed templates or slip-in pages that require little work on the part of scrapbookers.

- Use your own handwriting. Handwritten sentiments can make the scrapbook even more meaningful.

- Don’t overload with photos. Let one or two photos on a page best convey the emotions and stories. Create balance with white space, text and other accents.

- Categorize your photos. Disorganized photos can make scrapbook creation more challenging and ultimately frustrating. Organize your photos by month and rely on cloud-based photo storage systems to keep them safe. Then, when you need them, you can print only those images you want to include in your book.

- Have fun with the process. You have the entire year to create a beautiful scrapbook. Take your time and experiment with different ideas.

Crafts for the not-so-crafty hobbyist

Creativity lends a lot to everyday life. School parties are made that much better by intricate dessert designs. Handmade blankets tend to be more inspiring and cherished than mass-produced alternatives. Because of that, many people find hobbies that inspire their creativity to be incredibly rewarding.

While crafting is a hobby that can be enjoyed by people of all ages and skillsets, some people are more craft-inclined than others. That doesn’t mean those with little arts and crafts experience cannot make items they can be proud of. The following are a handful of projects for inexperienced crafters who may feel as though they have two left thumbs.

Dress-up premade items

Sandra Lee made a career of teaching people how to blend some prepackaged food items with other ingredients to create semi-homemade menus. Anyone can use the same mentality to put together craft projects without having to start from scratch. Search the hobby stores or department stores for items that can be paired together. For example, why not glue a 4-by-6-inch picture frame to the top of candlestick holder for an ornate and interesting design element at home? Mason jars can be embellished with just about anything — from ribbon to fabric to glitter — giving them a decorative touch. Simply giving an item a new coat of paint or adding some decorative tacks or hooks can

easily change its look and give it a crafty feel.

Grow comfortable with a computer printer

Homespun graphic arts can be mastered by just about anyone with access to some clip art, fonts and basic design software. You may also be able to find free apps or shareware online providing ready-made templates. Print out cute labels or tags that match party themes and put them on favor bags or prizes. Print cute slogans on cardstock and staple them to a small, filled plastic baggie to serve as classroom gifts or Valentines. Make a collage of different images and print them out to frame. Or snap a picture of a particular pattern or design element that fits with a room’s theme and then frame that image for matching artwork.

Make soaps or candles

Thanks to the bevy of kits available at craft stores, it’s easier than ever to make your own soaps or candles at home. All it usually takes is melting down the medium, adding the desired scents and colors and then allowing them to set in a mold or container. The result may seem like you worked for hours when really it was a relatively easy task. These handmade products can make great hostess gifts or nice touches when guests stay over at your home.

Personalize clothing

You do not have to be an artist to create t-shirts, aprons or other items that have that personalized touch. If you do not want to hassle with the mess of fabric paints or pens, use iron-on stencils or letters. Another idea is to create your own stencil (fire up that printer again), cut out your design or letters and then use a bleach pen sold in the laundry or cleaning aisle to color in the design. Let it sit and then launder for a faded and fun project.

Crafting doesn’t have to be difficult. Projects exist for people of varying skill levels.

Find a hobby that works for you

Hobbies can serve many functions. Some men and women turn their hobbies into careers, while others rely on their hobbies to provide a relaxing respite from the hustle and bustle of daily life. Inspiring hobbies can make life more rewarding. While many people experience some trial and error as they seek something to fill their downtime, the following are a few tips to finding

a hobby that will enrich your life and maybe even the lives of others. • Consider your interests. Much like you considered your interests when choosing a career path, you can benefit from doing the same when the time comes to find a hobby. If your work remains your passion, look for ways to share that passion with others. Perhaps you can teach a class at your community's learning annex

or volunteer to work with high school kids who might have expressed an interest in your line of work. If you want to leave the office behind in your downtime, consider your other interests. Avid readers may want to start a local book club, while film buffs may enjoy starting a local film appreciation group. The more passionate you are about a topic or activity, the more likely you can turn it into a successful

and rewarding hobby. • Consider your needs. Another way to find a successful hobby is to consider why you want one in the first place. If your workdays tend to be hectic and you want a quiet escape, then a peaceful hobby such as painting might do the trick. If you're looking for a hobby that can add some spice to your social life and help you meet new people, look for something that encourages teamwork or interaction with other people your age. • Consider your availability. Another thing to consider when choosing a hobby is how much

time you will have to pursue it. If your schedule is especially hectic or unpredictable, avoid hobbies that require a big time commitment, as such activities may prove too difficult to commit to. In such situations, a hobby that allows you to embrace it on your own time will likely prove more enjoyable than one where you must adhere to a schedule that you simply can't honor. If you have a substantial amount of free time, then something that requires more involvement on your part might be right up your alley, whereas hobbies that don't require much regular participa-

tion likely won't provide the respite or fulfillment you're looking for. • Consider those closest to you. Many people find that the best hobbies are the ones that allow them to spend more time with their loved ones, whether those loved ones are their own children, their parents or their close friends. Parents may want to find an activity that allows them to bond with their children, while young working professionals may want to find an activity that provides them with opportunities to spend time with their equally busy friends.

Nearly every holiday shopper has at least one person on their list who seemingly has everything. When shopping for such loved ones, shoppers often find the perfect gift to be especially elusive.

While gift cards are a go-to fallback option when shopping for the person who has it all, many gift givers feel such cards are a tad too impersonal. But in lieu of traditional store-bought gifts, shoppers stuck on what to buy should consider the many great reasons to give homemade gifts.

1. Homemade gifts show your loved one how much they mean to you. Gift cards are practical, but they rarely elicit the warm feelings holiday shoppers want their gifts to produce. A homemade gift will show your loved one that you put time and effort into making their holiday season special, and that's something they will appreciate when they use or see the gift.

2. Homemade gifts won't break the bank. Holiday shoppers working on tight budgets likely won't have to break the bank to create a homemade gift. The Internet is a great resource for inexpensive homemade gift ideas.

3. You can control quality with homemade gifts. Store-bought items are not always of the highest quality, and no shopper wants to give a gift that falls apart within a few days. By creating the gift yourself, you can ensure it's made with the highest quality materials so it will withstand the test of time.
