New book chronicles 1955 flood

PUTNAM — The Aspinock Historical Society is thrilled to announce the release of an enlightening and poignant next book, “Minhasset Village, Gone But Not Forgotten.” This compelling work delves into the harrowing stories of over 100 families who lost everything on July 4, 1955.

The book is enriched with a wealth of historical photographs and interviews with these affected families, providing firsthand accounts and heartfelt narratives. It is a must-read for anyone interested in the history of this resilient community.

To reserve your copy, please contact the Aspinock Historical Society at historicalsocietyaspinock@gmail.com or call (860) 963-6800, ext. 300. The book is available for $30, with an additional $5 for shipping tax included.

Don’t miss this opportunity to own a piece of this resilient village’s history. "Minhasset Village, Gone But Not Forgotten” is a testament to the strength of the community in the face of adversity.

Students of the Culinary Arts Career Pathway at Tourtellotte Memorial High School show off some of their tasty creations.

AT CULINARYwriters write at the ECSU Literary Festival for High School Students on Friday, Oct. 13.

WILLIMANTIC — Creative writing students from EASTCONN’s Arts at the Capitol Theater (ACT) performing arts magnet school will be showcasing their work at the second annual Literary Festival for High School Students on Friday, Oct. 13.

The Roseland Park & Golf Course Legacy Campaign “150 Years and Beyond” held the kickoff of its $500,000 campaign on Sunday, Oct. 29, in the historic barn on the Roseland. "Mr. Bowen’s dream Turn To KICKOFF page A24"
KILLINGLY — New York City’s GIANT Room visited the Killingly Public Library on Saturday, Oct. 28, to offer children and their families a unique and unforgettable experience.

The GIANT Room is a one-of-a-kind innovation hub located in New York City. The GIANT Room offers a diverse range of programs and content that merge design, art, engineering, coding, technology, math, science, and literacy. Founded by two highly qualified Ph.D.’s in Education, Dr. Azadeh Jamalian and Dr. Jessica Mezei, this organization aims to empower young minds to pursue their widest dreams.

The Connecticut State Library partnered with Azadeh (Azi) Jamalian, Founder and CEO of the GIANT Room, to bring a set of three professional workshops to libraries. Libraries were brought together to receive training on ways to implement creative STEM-based family programs to energize community building, and librarians and their teams were given the opportunity to witness the methodology in action. To be selected for an in-person event facilitated by The GIANT Room, all potential libraries were required to submit a written application that explained why their library should be chosen. When Claudette Stockwell, Director of Killingly Public Library submitted her application, she never imagined that her community would be selected.

Stockwell and her team had the opportunity to witness the GIANT methodology in action at Saturday’s event. This is just the beginning of future collaborations. Funding was made possible by the Connecticut State Library and Library Services and Technology Act (LSTA) provided through the Institute of Museum and Library Services (IMLS).

The virtues of open-mindedness, and humility

In a world that often celebrates individual achievement and personal success, it’s imperative to remind ourselves of the importance of intelligence, open-mindedness, thoughtful, and humility.

Intelligence, the ability to think critically and solve complex problems, is undoubtedly a valuable asset. It fuels innovation, drives scientific discovery, and often leads to advancements that improve our lives. However, true greatness lies not in the tireless pursuit of personal success alone.

Contributing positively to our community means harnessing our intellect to make our society a fairer, more just place. It means understanding the contributions that others have made, from diverse experiences and viewpoints. We can learn from others, and adapt to change. We are more likely to collaborate, learn, and grow. We are better at evaluating our work, and we are more insightful when considering the consequences of our actions.

In a world that often celebrates individuality and independence, humility is crucial. It’s the wisdom to harness our intellect for the betterment of all. It’s the willingness to consider different perspectives and adapt to change. It’s the realization that our success is not just our own, but also the result of the contributions of others.

Thoughtfulness is the art of considering the consequences of our actions. It’s recognizing that our words and deeds have implications for others. Thoughtful individuals recognize the interconnectedness of our lives, and strive to make choices that contribute positively to their communities. They take time to empathize with others, considering their perspectives and experiences.

Open-mindedness, thoughtfulness, and humility converge, revealing a mindset that values diversity and respects those who possess these qualities. It’s recognizing that we don’t have all the answers, and that the contributions of others are essential.

Letter submission policy

Letters to the Editor must include the author’s name, address, and a phone number for verification purposes. Letters will be published. Letters submitted outside of the required information will be returned.

To the Editor

In the end, it is the combination of these virtues that creates individuals who are truly remarkable. It’s the ability to think critically, but also to recognize that there is more to the story than meets the eye. It’s the willingness to learn from others, and to adapt to change. It’s the recognition that our success is a result of the contributions of others.

Vote for concrete results over unfounded promises

In a world that often celebrates individual achievement and personal success, it’s imperative to remind ourselves of the importance of intelligence, open-mindedness, thoughtful, and humility.

Intelligence, the ability to think critically and solve complex problems, is undoubtedly a valuable asset. It fuels innovation, drives scientific discovery, and often leads to advancements that improve our lives. However, true greatness lies not in the tireless pursuit of personal success alone.

Collusion is not to blame for Clark's lack of preparedness

To the Editor:

On Oct. 12 and 14, a non-profit, locally run Thompson Library, 20 Thompson Together, hosted a Candidate Night with 11 candidates for public office. Open to all, the public was free to hear the candidates outline their platform for the general election. The event was a comprehensive effort to organize Thompson voters as to the logical choice and moving forward in the upcoming elections.

The event was under the direction of 20 Thompson Together, hosted a Candidate Night with 11 candidates for public office. Open to all, the public was free to hear the candidates outline their platform for the general election. The event was a comprehensive effort to organize Thompson voters as to the logical choice and moving forward in the upcoming elections.

To help us understand the work we started

To the Editor:

To the Village Times and to the community of Thompson, I want to say thank you very much for your support and dedication to the town. Your efforts have made a significant difference in the lives of so many people.

I recently received a call from a constituent expressing concern about a specific issue. I was able to resolve the issue quickly by reaching out to the appropriate authorities and ensuring that they understood the importance of the matter.

In conclusion, I want to say that I am grateful for the opportunity to serve you as your representative. It has been an honor to work with you, and I look forward to continuing to do so in the future.

Sincerely,
Mark Thompson

LETTERS TO THE EDITOR

Nora Valentine for Tax Collector

To the Editor:

I would like to thank all those who have supported me in my campaign for Tax Collector. It has been a privilege to serve the residents of Thompson in this capacity.

As your representative, I am committed to ensuring that the town's financial matters are handled with utmost care and attention. I will continue to work hard to improve the efficiency of the town's operations and to provide excellent service to the taxpayers.

Thank you again for your support, and I look forward to serving the residents of Thompson in the future.

Sincerely,
Nora Valentine

Warren should be running for S.N.

To the Editor:

I recently read one of Bill Warner’s ads in the local newspaper, and I was struck by his lack of preparedness and soundness. He seems to be more interested in himself rather than the needs of the people.

Warner is the poster child of why good people don’t want to be politicians. He makes extravagant claims and promises, but when it comes to delivering on his promises, he fails miserably.

If you want a politician who will work hard for the benefit of Thompson and its residents, then please vote for me, Nora Valentine, for Tax Collector. I have the experience and dedication necessary to serve the town.

Sincerely,
Bill Warner

Meet the Future

Woodstock needs leadership

To the Editor:

It's time for a change in Woodstock. I believe I have a very interesting story to tell you about why I would be an excellent candidate for the First Selectman seat in Woodstock.

Both are well-qualified candidates, who have a plan to present to the Board of Finance (BoF), that if passed by the BoF, will create a new budget process.

The BoF will then have the opportunity to pass or reject the new budget presented by the First Selectman. The BoF will have the opportunity to pass or reject the new budget presented by the First Selectman.

The First Selectman will then be able to present the new budget to the voters in the upcoming municipal election.

In this upcoming election, let us demand transparency, accountability and a true dedication to the well-being of our children and families. Let us demand that our representatives work together on this important issue.

As voters, it is our responsibility to demand transparency, accountability and a genuine commitment to improving the lives of our children and families.

They also want to institute tax freeze for seniors and/or disabled persons but not for others.

The Woodstock Democrats have joined me in voting for Amy on Nov. 7. Join me in voting for Amy on Nov. 7. She has shown true leadership and willingness to keep us informed, and will all benefit from their capabilities.

The Stedman Team, including Mary St. Onge, is your ticket to a bright future for Woodstock.

To the Editor:

Woodstock, we need a leader.

St. Onge has shown true leadership

A respiratory therapist, St. Onge is now a nurse scientist.

Let's focus on the text and extract the relevant information:

**LETTERS TO THE EDITOR**

**Don't Let Norm Ferrenation!**

To the Editor:

Talib taxpayers are being robbed! Concerned residents can no longer allow this to happen! A group of our local taxpayers (BOK members) led by BOK Chair, Maureen Marcoux, are fighting back. Thousands of Talib taxpayers' dollars are being siphoned from our pockets, without our consent, from having our savings at Killingly High School, which is a public school and a public trust. BOK Chair Norm Ferren went on a tirade that, to say the least, was out of order. Each year was “just a drop in the bucket” to him. And he constantly tried to bully those against him, the majority of this BOK, into giving up their savings and wasting the dollars and bankrupt our ability to hold our kid's education. They are there for us, that is for sure.

It was also revealed that Mr. Marcoux and BOK member, John Fetterman, justified this by stating that he believes he has a right to a full-time position as principal and all other staff in the school district. We all need to fight to stop this abuse of administration in the district.

In another chapter of a “certainly true” report from CNN, the BOK was asked for a five-year contract, demand- ing $112,000 per year. This is ridiculous, unreasonable and not just a non sequitur. The contract was rejected.

In an email Mr. Marcoux sent to Save Talib taxpayers, this is how he perceives by making it clear that he is not going to do the right thing and come from him and alone. The statement: "I MP the MR of $27,000 for district support funds. Mr. Marcoux’s contract with Killingly immediately after the election, was that he will not fulfill the (conscience) contract and move on. Remember that the last time you saw him was on the 2nd of March.

This is trickery at its finest and us taxpayers are basically being held hostage. It’s a Pitt.

Your vote matters, please vote, after reading Mr. Marcoux’s emails, we should be glad he is gone. This person is a danger to our administration.

Our children need a leader, not a bully and those of East Lyme. They are going to leave. Let’s get rid of this man.

To the Editor:

Our enemies are in the halls of Congress

To the Editor:

How many people took the hate and began to paint our town, East Lyme, Connecticut, red? Has Hamas that bombed a hospital a good cause? For it, however, were Chris Plante and Hood do not understand the real truth. If we look at the way we treat each other, we will understand how much we need to take our hard work and achieve our goals.

Post immediately ran with the statement, “Hamas is not a terrorist organization. Hamas is a political party with a rural base.” And to that end, we want to say that there is no minor politician in the Gaza Strip. Joining the movement to end the Gaza conflict and reorient our sympathies with Hamas is not a solution. In this country, we support this approach and continue on. Remember that Hamas is a terrorist organization that should not be supported. And to make sure that our country “some people did something to us, but we are going to do something about it” and so we should stand up for what we believe in.

We, as a community, need to stand up for what we believe in. It is easy to say “yes,” but it is hard to stand up and fight for what we believe in. It is easy to say “no,” but it is hard to stand up and fight for what we believe in.

If you live in the town of Woodstock, CT, the registrars' office can be located by entering the building where the town hall is located. The building is located on the last week before election day.

Your vote matters.

To the Editor:

We want to say that the Hamas government should be ashamed of itself. It has the right to defend itself, but Hamas has committed atrocities against our civilians.

Our Country Resources, Care Providers, Hospitals and Families. Provide activities and programs for our residents. If interested, call 860-928-2744. Monday-Friday 8-4 or email resume to sales@holyHolyBrown.com

Putnam Middle School eighth grader TJ Espinosa wins the Boys QVJC cross-country championship in thrilling fashion last Wednesday, crossing the line less than one second ahead of Canterbury's Lucas Hecker.

“My winning mindset helped me push through the finish line,” said Espinosa, whose time of 12:25.4 bested Hecker by seven-tenths of a second on the 2.1-mile course at Plainfield High School. “I was elated throughout the entire race. It was rewarding because of the hard work that I’ve put into running.”

On the girls’ side, Putnam’s Abby Daniels came in second place, crossing the finish line in 14:47.1.

The pros and cons of rising interest rates, and our take on what may come next

This year interest rates have risen to levels that haven’t been seen in more than 15 years. The 10-year Treasury yield has jumped to almost 4.7 percent, up from under 1.5 percent in 2020. The rapid upvote from this large move has sent interest rates higher on all types of financial instruments, including home mortgage rates.

Some of our key points:

- Higher interest rates are good news for savers and bad news for borrowers.
- The interest rate environment is one of many factors that will weigh on the U.S. economy when creating our all-market, balanced, and diversified portfolios.
- First, a perspective. In April, our expectation was that Fed officials would continue their work of lowering our inflation rate. That led us to trim hedges for our clients and replace it with limits that invest in small and mid-cap stocks. Doing so further diversified our portfolio.
- There’s a risk that today’s higher interest rates will slow consumer spending and negatively impact overall economic growth in the coming quarters if that occurs. It’s possible that bond prices will start falling from here. So now we are watching for opportunities to add to our portfolio’s bond exposure.
- Increasing interest rates will benefit financial institutions that collect low interest rates on deposits and pay higher interest rates on loans and other borrowings. Therefore, the key is to use the opportunity to increase the net interest margin without compromising loan quality or growth.

The Federal Reserve

One of the Federal Reserve’s main jobs is to keep inflation in check, in response to rising prices by increasing the federal funds rate—the interest rate used to determine the cost of borrowing money. In the case of the current rate hike, the Federal Reserve has increased the federal funds rate from 0% to 0.75%.

The economic impact

It takes a while for the higher rates to trickle through the economy, highlighting four ways the Fed’s effects can be measured by the CPI inflation. The Fed’s goal is to keep inflation close to 2 per cent, so investors should be hopeful that the Federal Reserve has only limited interest rates one or two more hikes.

Federal deficits impact interest rates, too. This year the U.S. budget deficit has increased from $4.8 trillion in 2020 to $5.8 trillion in 2022, resulting in a higher national debt. Federal deficits increase interest rates, too. Inflation expectations are closely tied to rising interest rates. The Federal Reserve is the main reason for rising interest rates. The Federal Reserve’s aim is to keep inflation close to 2 percent, so investors are hopeful that the Federal Reserve has only limited interest rates one or two more hikes.

A new book for "New Hampshire's Haunted Route 46," the most haunted road in the state of New Hampshire, is out this month. A12 Publishing New England is proud to announce the release of "Killingly: Haunted Route 46," a book that explores the haunted history of this haunted route.

In a previous column, I offered tips for estate personal property handling (previously called "executor work"). This is a taxable estate, according to the IRS. It is often a daunting task in the probate process to handle the personal property in the estate.

We now discuss handling this personal property after the death of a loved one.

Many of the personal items left to someone have been appreciated. It is likely that someone representing the deceased would have a reasonable view of the value of the estate.

If you ever become a personal representative, there are some do's and don'ts you can do to get the price for an item, however.

You should go through the items, make a list, and see if you want to sell them. If you do, you will need to appraise the items. Sometimes items can make the estate estate.

If you are an executor or a personal representative, there are some guidelines you can follow to get the price for an item, however.

After the items have been appraised, you can then sell the items in an estate sale or online auction.

There are many options available for handling personal property. You can sell the items in an estate sale or online auction. You can also donate the items to a charity.

For additional information on handling personal property, you can contact a local estate sale company or online auction.

**In the Studio**

“I like Studio” features artwork from the Coro-House to many artists and makers, and serves as a platform for international exhibition. It showcases fine art, handcraft, performing art, and graphic art. In this section, we launch our artist neighbors and keep abreast of current projects, and consider them in the future. We’ll also learn some “artistic terms” in conversations, demystify some of the “artistic words”.

In this interview, we explain what a girl is doing a little bit different in the world of art with flight. Blake Williams is a Boston-based artist, working on installations and paintings with the goal of taking the audience to new heights. He has been exhibiting diligently in the past few years, including a recent solo exhibition in Boston. He has a Bachelor of Science in Art from Georgia Tech, and recently completed his internship at the online publication for ECSU students. Stoney took second place in his words, thanking his family and friends for their support.

**Dance**

**The Legacy Campaign**

The campaign’s goal in the campaign entered the horizon. “There is a full-scale discussion that has captivated us. It’s gone.” He promised to its students. Stoney took second place in his words, thanking his family and friends for their support.

**Culinary**

The culinary arts program has proven to be immediately popular and successful. The culinary students of the 2015-2016 academic year entered the first classes. Smith stated, “I observed the addition to their curriculum, and noticed students who are more various academic and vocational programs or those self-help skills and careers at the same time. Our culinary arts program is still fresh, Smith said. Their enthusiasm around the program is still great, and we are thrilled that they are still working at it.”

### Festival

**The Legacy Campaign**

“Giving them the opportunity for our students to demonstrate their knowledge. We want to create opportunities to attend the Santa Fe Opera, and those self-help skills and careers at the same time. Our culinary arts program is still fresh, Smith said. Their enthusiasm around the program is still great, and we are thrilled that they are still working at it.”

Killingly holds Halloween Spooktacular celebration

DANIELSON — The town of Killingly ushered in a new annual tradition on Oct. 28 with an afternoon-long Halloween celebration along Main Street. The town held its usual Main Street Trick-or-Treat early in the afternoon allowing local youngsters to visit Main Street businesses in costume to get their first dose of holiday candy. Trick-or-Treaters could then move over to David Park for a stationary Halloween party complete with food, blowup decorations, music, a bonfire, and more as they counted the evening hours when the town’s first Spooktacular Lights & Sounds parade hit the streets. The day proved to be a delightful, family friendly way to embrace the holiday spirit.

The Mandalay Salon & Spa channeled one of the year’s biggest films “Barbie” with a photo-op opportunity for visitors.

The Brunet Company hands out candy during Main Street Trick-or-Treat.

The cast of “Baby Shark” paid a visit to downtown Danielson for Main Street Trick-or-Treat.

TEEG and NOW came together to help promote local health initiatives at Main Street Trick-or-Treat.

Visitors to David Park enjoy some fun with bubbles at one of the numerous Halloween blowup decorations in the park.

Visitors to Killingly could warm up by a bonfire as they waited for the first ever Spooktacular Lights & Sounds parade hit the streets.

Westfield Church provided plenty of fun during Killingly Halloween celebration with facepainting, a bounce house, food, and more.

A drum circle in Davis Park offered a chance for kids and adults to get in on the musical fun. The staff of Key Bank was in full costume as they passed out candy to locals on Main Street.

The day proved to be a delightful, family friendly way to embrace the holiday spirit.
